

### **AHIMTA International At-Large Board of Director Position**

Since its inception, AHIMTA has had members who live outside the United States. We have maintained a dedicated group of members from Australia. Our presence in Canada has increased significantly over the past five years. We have also had visitors from the Philippines and Saudi Arabia at our annual Symposiums. While AHIMTA has largely focused on domestic issues, the Board of Directors has acknowledged in its Strategic Plan that international outreach is important to the mission of AHIMTA and to growing AHIMTA's brand and influence. Understanding this, the Board of Directors has created an International Board of Director At-Large position.

The AHIMTA International At-Large Board of Director position will be responsible for representing AHIMTA international members and for expanding AHIMTA to an international audience. The position will be responsible for international outreach and growth.

The AHIMTA International At-Large Board of Director should be someone that has a respectable career in incident management and has experience in international outreach. The member should be recognized internationally as a leader within the incident management environment and has a large network of connections. The member should have experience working with international associations involved in emergency management and other public safety organizations that have relevancy to AHIMTA.
